Occupational First Aid Level 2 Course Outline & Pre-reading

Please prepare for each day of class by reviewing the Lesson Outlines for each lesson in the WorkSafe BC Occupational First Aid Level 2 Training Guide and doing the required reading in the Training Manual and other noted references **PRIOR** to the start of class for that day.

Thus you should have completed the pre-reading for Lessons 1 and 2 prior to the start of the course and you may read ahead as far as you wish.

The homework questions (in separate booklet within the WorkSafe BC Occupational First Aid Level 2 Training Guide) should also be reviewed at this time, and answers finalized after the lessons for that day are completed in class. You will be required to hand in your completed homework assignments prior to the start of the next day. Your Instructor will mark each homework assignment, record your results and return the marked assignments to you. Should you have further questions regarding the homework assignments, please do not hesitate to ask your Instructor
